

CONVEYING TECHNOLOGY FOR THE LIME, GYPSUM AND CEMENT INDUSTRY

The requirements for conveying technology in the lime, gypsum and cement industries are varied and demanding. Loibl offers tailor-made solutions for the efficient conveying of powders, granulates, sticky or abrasive materials.

EFFICIENT, RELIABLE, CUSTOM-MADE

PLANT ENGINEERING & CONVEYOR TECHNOLOGY

Loibl offers turnkey systems and a wide range of conveying solutions, including bucket elevators, troughed chain conveyors, screw conveyors and numerous components for transporting lime, gypsum and cement. Our customised solutions ensure the efficient handling of bulk materials at all stages of production.

CONVEYING, STORAGE, PROCESSING

Loibl conveyor systems are ideal for the efficient transport, storage and segregation of bulk materials. They are tailored to the individual requirements of the site and ensure smooth conveying processes. Our innovative systems enable reliable material transport in any environment.

OUR BENEFITS AT YOUR SERVICE

- **Tailor-made solutions for all your conveying needs:** We offer a wide range of conveying technologies that can be tailored to meet your individual requirements
- **Durability and robustness:** Our systems are characterised by high resistance to abrasive materials and long-term functionality
- **Cost-effective and sustainable:** Durable systems with minimal maintenance requirements
- **Innovative technologies:** For continuous and reliable conveying
- **Flexibility in conveying:** Even for the most challenging materials, such as powders, sticky or abrasive substances

PLANT ENGINEERING & CONVEYOR TECHNOLOGY FROM LOIBL

OUR CONVEYOR SYSTEMS FOR YOUR INDUSTRY

- ⊗ **LASHBUCKETCON®** - Bucket elevators (belt / chain)
- ⊗ **LASHCHAINCON®** - Trough chain conveyors
- ⊗ **LASHSCREWCON®** - Screw conveyors
- ⊗ **LASHBELTCON®** - Belt conveyors
- ⊗ **LASHFLEXCON®** - Side wall conveyors
- ⊗ **LASHPIPECON®** - Pipe conveyors
- ⊗ **LASHLOOPCON®** - Closed loop conveyors
- ⊗ Pan conveyors
- ⊗ Box feeders
- ⊗ Rotary feeders
- ⊗ Loading and unloading systems
- ⊗ Storage systems
- ⊗ Hoppers
- ⊗ Silos
- ⊗ Semi-portal scraper

PERFECT STORAGE AND TRANSPORT SOLUTIONS

- ⊗ **Storage systems & silos:** For efficient intermediate storage and fast material handling
- ⊗ **Loading and unloading systems:** Seamless integration with your logistics
- ⊗ **Rotary feeders:** Precise dosing and transport of lime, gypsum and cement

EXAMPLES OF APPLICATION AREAS

- ⊗ **Warehouse conveyor technology:** Safe and efficient handling and storage
- ⊗ **Silo loading, charging, and unloading:** Quickly fill, remove, and store materials
- ⊗ **Truck loading and unloading:** Integration into all logistics processes
- ⊗ **Conveyor systems for the milling industry:** Transport and conveying of bulk materials

FUNCTIONAL, DURABLE, LOW-MAINTENANCE

Loibl Förderanlagen designs its systems not only with functionality in mind, but also with cost efficiency. Our solutions are durable and require little maintenance, reducing your operating costs in the long term. We also use environmentally friendly technologies that minimise energy consumption while delivering maximum performance.

DESIGNED, ENGINEERED AND MANUFACTURED IN GERMANY.
